

Edmodo.com

All the resources shared during the Math Common Core sessions are available to all teachers on Edmodo.com. Edmodo is a secure, social learning platform for teachers, students, schools and districts and is a medium for teachers to connect, collaborate and share content and resources.

Teachers are strongly encouraged to not only access the Common Core materials, but to also share and network with Marquette-Alger teachers throughout the school year using Edmodo. Attached are the directions on how to create an Edmodo account and below are the access codes needed for each grade level.

For a short video on how to use Edmodo go to: <http://www.youtube.com/watch?v=Ur0c1h1Gdas>
