906-458-5413

Children **MUST** get screened in their residing district.

**Apply for
GSRP/HeadStart
Now!**

What is Screening?

Preschool Screening is a check to see how your child is growing, learning and developing. Between the ages of 3 and 4, you can access early intervention services to support any individual needs. This early help ensures every student has the best possible start before they even begin kindergarten.

Preschool screening is a collaboration with Marquette-Alger RESA, local school districts and Community Action Alger Marquette (CAAM).
